Equipment / machinery

TFP 250

A robust heavy duty floor scarifying machine, designed for heavier applications such as reducing concrete, concrete grooving laitance removal or keying ready for resurfacing. The motor has been positioned to place the weight directly above the cutter drum for a firm ground holding cut.

SF 11

For use on steel surfaces, Scaleforce Eleven is ideally suited for thick coating removal and surface preparation on large areas of deck and tank floor cleaning, complimenting the Trelawny hand held Scaling Hammer range. Eleven heads impacting at 3,000 blows per minute break down the hardest of coatings.

TTCG 500

The TCG500 is a concrete grinder with dual counter rotating discs, designed for:

- Removing high spots from concrete
- Surfaces grinding terrazzo floor tiles
- Removing a build up of coatings and debris from floors.
- Texturing floors for non-skid applications
