Waterproofing Systems, Sealers & Sealants

Wet area membrane

PU10

DESCRIPTION

A one part waterbased UV stable polyurethane membrane suitable for wet areas and all under tile areas.

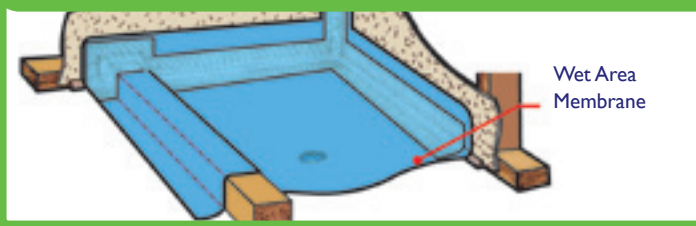

RECOMMENDED USES

Waterproofing of wet areas, balconies and other under tile areas.

FEATURES AND BENEFITS

Quick drying, solvent free, UV stable, easy application. Tested to AS4858 by CSIRO.

Code:	Description	Pack QTY
PU10	UV stable waterbased grey polyurethane	15L 32/Pallet

DF30

DESCRIPTION

DF30 is a grey, Acrylic cement based 2-Part, flexible waterproofing and sealing membrane.

RECOMMENDED USES

DF30 can be used over concrete, render, rendered brickwork, block work, and particle board surfaces. It is ideal for waterproofing of shower recesses, wet areas, balconies, terraces, roof tops, swimming pools, and water tanks and other similar applications.

FEATURES AND BENEFITS

DF30 does not require the use of fibreglass or similar types of reinforcement tapes. Can be used for internal or external waterproofing applications.
